

Spike's Daily Activity

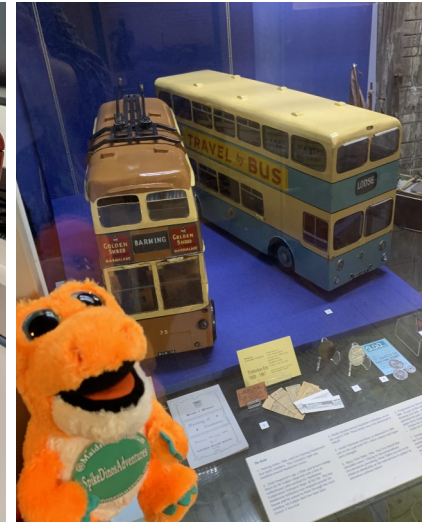

#SpikeDinosAdventures

Welcome to Spike Dino's daily post for children learning from home.

TRANSPORT; Buses

Spike has found several buses in the museum's collection. His favourite is the red one because he can touch this one. The other two are in the Local History gallery. They are models of buses that used to carry people around Maidstone. Spike likes travelling by bus especially as he can catch one from outside of the museum and travel to lots of different places. He misses going to visit his favourite places at the moment.

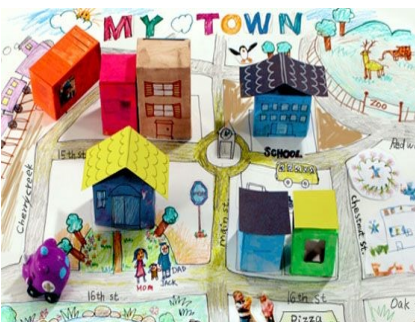

Spike was planning on going to Yorkshire for his Easter Holidays this year but as he's not allowed to travel he's planned his visit for next year instead. He's marked his map with 'Great Idea' markers so he remembers where he wants to go. He's also been thinking about who he wants to go on his journey with.

Activity 1; Create a map of a journey you'd like to take by bus or car to your favourite places once we can all travel again. It can be a made up journey that takes you to lots of your favourite places. You could draw it, or use junk modelling.

We've found a couple of ideas to help you out.

Share your pictures tagging @MaidstoneMuseum and SpikeDinosAdventures on social media or by emailing museumeducation@maidstone.gov.uk and we'll post to Instagram

Activity 2; Who would you like to go on a bus journey with? Draw them on the bus below.

Draw who you'd like to go on a bus journey with.
