

# Make your own Hot Air Balloon

**Step 1.** Gather your materials. You will need, 4 sheets of coloured paper, a paper cup, some string, scissors, glue and a pencil.

**Step 2.** Fold each piece of paper in half, then draw half of a hot air balloon shape along the folded side. See picture. Then cut them out so you have 4.

**Step 3.** Glue each side together so it creates the hot air balloon. See picture.

## Make your own Hot Air Balloon

**Step 4.** Make 4 holes around the cup and then make 4 holes around the bottom of the balloon, see picture.

**Step 5.** Attach the string to the holes on the balloon and then attach it to the holes on the cup.

You have finished your hot air balloon. Don't forget to share what you have created with us **#SpikeDinosAdventures**
