

# Make your own Painted Easter Egg

**Step 1.** Gather your materials, you will need an egg, a bowl, a long sewing needle or a paperclip, some paints and some paintbrushes.

**Step 2.** Ask an adult to use the needle or the straightened paperclip to gently poke a hole in each end of the egg. You can place a small piece of tape at each end to help stop the egg from cracking.

**Step 3.** Ask an adult to use the needle or paperclip to push inside the holes to make sure that the yolk is broken.

**Step 4.** Then ask your adult to gently blow into one end of the egg and you should see the inside start to come out of the bottom, if this is tricky then you can make the holes slightly bigger. Then rinse the egg under water and allow to dry.

## Make your own Painted Easter Egg

**Step 5.** Use the paints to decorate your egg, you can give the egg a basecoat of white before you start.

**Step 6.** Now use the other colours to paint your final design, don't forget to let your egg dry before to handle it.

**You have finished your  
Painted Easter Egg, don't  
forget to share what you  
have created with us
