

Make your own Space Rocket

Step 1. Gather your materials.
You will need, a toilet roll tube,
scrap paper, scissors, glue and
coloured pens.

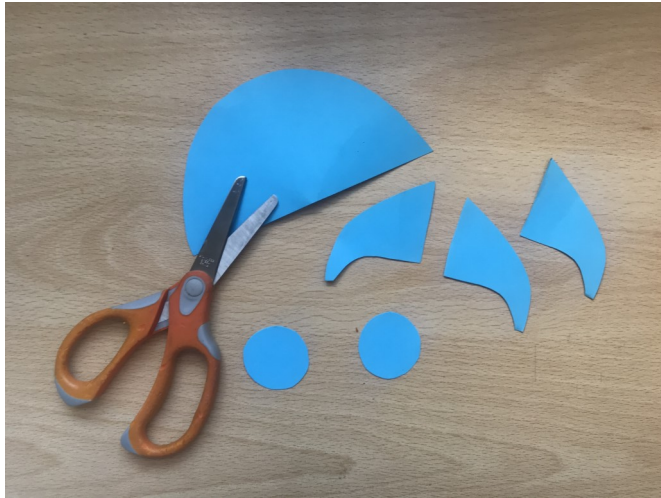

Step 2. Use the pens to colour in
the toilet roll tube.

Step 3. Use the scissors to make 4
slits around the bottom of the
tube.

Make your own Space Rocket

Step 4. Use the scrap paper to make 2 circles for windows, jets for the bottom and a semi circle that will become the cone at the top.

Step 5. Attach the jets to the slits at the bottom, stick the windows on each side. Then make the semi circle into a cone and place on the top of the rocket. See picture.

Step 6. You have finished your rocket.
