

EGYPTIAN Self Led GALLERY activity

Try and find an Egyptian object for each of the descriptions and draw it below. They are to do with everyday life. Egyptian objects are on an orange background.

Something used to build a house	Something to look in to check your makeup	Something to wear round your wrist
Something with writing on it.	Something that makes a dingy sound	Something to weigh a fishing net down in the water.
Something to wear on your hand/fingers	The tail of an animal	Something sharp to use to hunt for fish

Mummification

Now find the objects that would have been used in the process of mummification – bandages, amulets, shabti's, canopic jars, death mask and draw them below. (there are multiple of each of these in the gallery)
